

WORKSHOP #2

EVERYDAY COURAGE™

Acting with Clarity When It Counts

Leadership doesn't happen in ideal conditions—it happens in the messy, uncertain moments where action matters most.

From tough conversations to high-stakes decisions, *Everyday Courage™* equips participants with the mindset and skills to address challenges head-on. This workshop encourages individuals to stop waiting for “the right moment” and instead build the habit of acting with clarity, confidence, and conviction—especially when it’s uncomfortable.

Success isn't about always having the perfect answer, it's about moving forward even when you don't.

Best for: This workshop is ideal for professionals at all levels who want to build the habit of stepping into hard moments with confidence, addressing challenges directly instead of hesitating or holding back.

Participants will increase their ability to:

- ✔ Take action in moments of uncertainty instead of waiting for the “right time”.
- ✔ Speak up and engage in difficult conversations with clarity and conviction.
- ✔ Turn hesitation into action and break the cycle of avoidance that keeps teams stuck.

After the workshop, attendees will be equipped to:

- ✔ Approach challenges with a mindset that turns hesitation into action.
- ✔ Build a culture where people don't wait for permission to address what needs to be said and done.
- ✔ Apply practical strategies to lead with courage in everyday situations.

Note: After uncovering unseen challenges in *The Undercurrent Effect™*, this workshop gives participants the courage to act on them.
